features in detail

SourceFirst

‣ Sources resume from different websites and job boards in one search
‣ Effectively utilize logins to paid job boards
‣ Avoids duplicate resumes to be added into the system
‣ Effectively organize and rate candidates before adding them to database

cBizBar: (Outlook Tool Bar Add-in)

‣ Tracks, Manages and processes incoming mails
‣ Adds contacts from incoming email signatures.
‣ Adds candidates profiles from incoming email
‣ Linking emails to a contact or candidate for audit trail
‣ Archive contacts whose mails bounce repeatedly.
‣ Duplicate mail wizard - automatically mark/move duplicate mails.

Search Criteria

‣ Quick search of records in seconds with a million plus resumes.
‣ See live results as you search for records
‣ Boolean search
‣ Assist you to find even a 'needle in haystack'

Email Marketing

‣ Allows you to easily segment your data.
‣ Send promotional emails/Job details to target audience
‣ Open requirements to all potential candidates
‣ Marketing emails to potential customers.
‣ Company or industry newsletters to a target audience.
‣ Customizable email template and send personalized newsletters

CRM

Your database is 100% secure. Using permissions you can restrict users:

‣ Quick access your contact data
‣ Manage your Contact Information
‣ Filter contact by name/company and categorize them.
‣ Scheduling a Call, Interviews, Tasks and Events
‣ Send Emails/SMS directly to your contacts
‣ Sync with Outlook contacts / Calen

Resume Extractor

cBizOneIndia has a built-in parsing engine which extracts key data from Resumes, eliminating data entry jobs. By using 'Import resume' feature one can import all existing resumes from hard disk into cBizOne database.
