

YOUR NEED FOR RECRUITMENT
SOFTWARE ENDS HERE

"We switched to cBizOne. Our Database got managed. Productivity Increased. Response time decreased. Organizational History maintained. Reporting Analyses got extensive. Ultimately the Best tool available. Great Team, Regular Product Improvement, Quick Support and Cost Effective Solution adds on the value to excellent. My Compliments to cBizOne Team."

Cbiz is a very effective tool for a Recruitment firm like ours which has to handle a huge database of candidates. It gives us the flexibility to customize the software anyway we want it as per our needs.

Using Cbiz is just like creating your own personal Database Portal and the charges are also very much in our limits. The online support of Cbiz available for 24hrs has been of great help to us.

Overall a very good tool

Director

We needed a Software which could successfully automate the latest version of our Process. To this end, we evaluated almost 9 software products. After a careful and intricate study, CBizOne stood out as an ideal product for us. The trump card being the customization option available with CBizOne. It won the race by a mile. Today we are able to add almost 25% extra time into productive work, which otherwise was being spent on Reports and Trackers. Analysis has become so easy that our weekly meetings are not more than 20 mins. To top it all, we closed a Senior Management (IT) position in just 6 days flat, where the TAT was just 17 minutes! Pls keep the good work going.

Regards,
- NG.

"I and my company have been using Cbiz since the last 6 months. I must say it's been serving us as a wonderful recruitment tool and helping us enhance our business requirement to a great deal. Keep us the good work".

Thanks and have a nice day!

cBizOne is indeed a very reliable product which has helped us shape up our process and achieve the desired results more efficiently. Not only has it made the tracking of vacancies simpler, but also has added lot of clarity in each step. I would strongly recommend this product to whoever is wanting to streamline the recruitment process and is looking for tried & tested, robust solution.

I am also impressed with your Product Support team that is very responsive & always eager to help.

Kind regards,
Puneet Dhingra.
